Gupta Cave Shrines. The earliest examples of religious architecture were cave-temples which typically had exteriors decorated with relief sculpture and a single carved doorway. Inside the shrine, ritual sculptures were placed such as a Shiva linga (phallus) and the walls were richly decorated with more carvings showing scenes from mythology. Notable examples are found at Udayagiri in Madhya ...

Indian Temple Architectural Styles

Buddhist religious architecture developed in the Indian subcontinent. Three types of structures are associated with the religious architecture of early Buddhism: monasteries, places to venerate relics, and shrines or prayer halls, which later came to be called temples in some places. The initial function of a stupa was the veneration and safe-guarding of the relics of Gautama Buddha. The earliest surviving example of a stupa is in Sanchi. In accordance with changes in religious practice, stupas
