The Botany of Desire. The Botany of Desire: A Plant's-Eye View of the World is a 2001 nonfiction book by journalist Michael Pollan. Pollan presents case studies that mirror four types of human desires that are reflected in the way that we selectively grow, breed, and genetically engineer our plants.

PBS PREVIEWS | The Botany of Desire

In The Botany of Desire, Michael Pollan argues that the answer lies at the heart of the intimately reciprocal relationship between people and plants. In telling the stories of four familiar plant species that are deeply woven into the fabric of our lives, Pollan illustrates how they evolved to satisfy humankind's 's most basic yearnings—and by doing so made themselves indispensable.
