### Drum-Set Tuning Guide - Tune-Bot

Get a drum key. Drum keys are used to tune drums and cost about two dollars at a music store. If you're going to play drums, it's a good idea to get one and make sure your kit is in tune with itself. To start tuning your drums or changing the heads, all you need is a stick and your drum key. Turn the snares off and you're ready to start.

### How to Tune Your Drums: 14 Steps (with Pictures) - wikiHow

The Drum Set Calculator in the tuning app can guide you in selecting appropriate fundamental pitches using a musical interval, chord, or song melody that works for the drum sizes in your kit. In addition, the calculator automates the tuning process by determining the required batter and resonant head lug pitches that will provide the desired fundamental pitch at a variety of resonance settings.
