Posted: Sat Mar 04, 2017 4:20 pm Post subject: Trying to identify Du-Al loader: Hi everyone. Last fall I bought a Farmall 560. It used to be my uncle's. At least one of the cylinders needs new seals. If it had a model number on it anywhere, either I haven't found it or (more likely) it got painted over when my uncle painted it a few years back ...

Optional "Bolt-On" Brackets from Worksaver
Modern replacement option for older DuAl® 200 and 215 series loaders; Commercial grade bucket with round-back bucket for even material flow; Four-bar bucket linkage maximizes bucket roll back and dump angles; Mid-attaching loader boom for greater visibility and tire clearance, greater turning flexibility and shorter turn radius

Dual loader question and pics - Ford Forum - Yesterday's ...
The original loader, the Model 12, was the primary product until 1993, when Tom developed two new loaders for front-wheel assist tractors, the PL-2 and PL-3. With increasing sales and a developing product line, Miller Loaders frequently added new buildings to their rural manufacturing site.

Woods: Woods Dual 3100 Loader Parts Diagrams
The 325 is a good heavy built loader. Du-All use heavier steel than farmhand, but a lot of people around here say it is low tensile steel and bends easier than the higher tensile steel used in Farmhand and John Deere brand loader frames. I have seen a lot of old loaders, and the Du-all seems to hold up as well as any of them.
