While I am unsure of the exact capacity of your car I did just do a refill on my 540i and it took 1.8 qts in the trans. As far as the diff (as well as the transmission if you are unsure) i have always just filled them until the fluid starts coming out of the fill hole. This way you know you are good. Hope this helps.

BMW 540i ATF Transmission Fluid Change Kit - E39 - 1997-03 ...

I have owned many cars over the years with manual transmissions and the metals used in these man trans boxes are very similar, but the "recommended" fluids changed over the years. The change happened mostly because people complain of shifting difficulty when COLD, so some mfg's recommend ATF so it is easier to shift in the morning, but as a lubricant, ATF is not very good for gears grinding on ...
