Earth Science Ellipse Lab Answer

Answer: The path of a projectile that falls back to earth is a portion of an ellipse, as Newton's picture showed. But if we make a graph of height above earth as a function of distance using Cartesian coordinates, we are distorting the actual shape by plotting distance on a straight axis (rather than on the curved earth), and plotting height ...

Physics puzzles, with answers. - Lock Haven

Scientific disciplines frequently divide the particulars they study into kinds and theorize about those kinds. To say that a kind is natural is to say that it corresponds to a grouping that reflects the structure of the natural world rather than the interests and actions of human beings. We tend to assume that science is often successful in revealing these kinds; it is a corollary of ...
