Elementary Differential Equations and Boundary Value ...

Elementary Differential Equations with Boundary Value Problems is written for students in science, engineering, and mathematics who have completed calculus through partial differentiation. An elementary text should be written so the student can read it with comprehension and without much pain.

Elementary Differential Equations and Boundary Value ...

Elementary Differential Equations with Boundary Value Problems integrates the underlying theory, the solution procedures, and the numerical/computational aspects of differential equations in a seamless way. For example, whenever a new type of problem is introduced (e.g., first-order equations, higher-order equations, systems of differential equations, etc.) the text begins with the basic existence-uniqueness theorem.
