Because engine removal often means moving the engine forward as well  
as up, remove the radiator, A/C condenser and header panel at the  
front of the vehicle. For those with a van or select trucks, you'll  
probably need to slide the engine much further forward to get it out -  
requiring that any impediments such as radiators, A/C condensers,  
header panels, grilles, and even bumpers be removed.
