Step-by-Step User Guide r1.1 [EPICOR FINANCIAL PLANNER]

Can anyone guide me in installing the Epicor Admin Tool on my client machine or creating a shortcut (if possible). Currently every time I have to run a conversion I have to remote into our server VM and I would like to be able to limit needing to log in on that machine as much as possible, being able to run conversions locally would be a huge step in accomplishing that.

Financial Management Software | Epicor

Just in case it's not clear Epicor Data Analytics is a standalone cloud based data warehouse which is an entirely different BI product from Data Discovery. That one has it's own install guide and is an additional product not included with ERP base product. If you all have questions about that product feel free to drop them here as well.
