Educational psychologists tackle challenges such as learning difficulties, social and emotional problems, issues around disability as well as more complex developmental disorders.

Educational | Careers Transpersonal psychology is a subfield of psychology that dares to tread (where few psychologists do) in the soul's arena. This field of study includes theories and practices that explore self-actualization, and spirituality (Lajoie & Shapiro, 1992). Transpersonal psychology is concerned with human wholeness and integration.

A habit (or wont as a humorous and formal term) is a routine of behavior that is repeated regularly and tends to occur subconsciously. The American Journal of Psychology (1903) defined a "habit, from the standpoint of psychology, [as] a more or less fixed way of thinking, willing, or feeling acquired through previous repetition of a mental experience."
