The GDPR unifies data protection across the EU. It applies to every organization in the world that does business with EU residents. U.S. organizations can self-certify to the EU-U.S. Privacy Shield (the successor to the Safe Harbor framework), which permits international data transfers of EU data to U.S. organizations.

10 ways GDPR differs from the US privacy model: PwC
Privacy Shield is an agreement between the EU and US allowing for the transfer of personal data from the EU to US. The GDPR has specific requirements regarding the transfer of data out of the EU. One of these requirements is that the transfer must only happen to countries deemed as having adequate data protection laws. In general the EU does not list the US as one of the countries that meets this requirement.

GDPR vs Privacy Shield - GDPR and Data Privacy
NEW EU DATA PRIVACY LEGISLATION (GDPR) Fines in case of non-compliance can reach up to 4% of the annual worldwide revenue or 20 million euros - whichever is higher. Even if the GDPR is applicable only as of 25 May 2018, we urge companies of all sizes and sectors to start the compliance process as soon as possible with assistance of legal counsel.

EU GDPR & EU-U.S. Privacy Shield: A pocket guide, second ...
What is the EU-US Privacy Shield? The EU-US Privacy Shield is a program where participating U.S. companies are considered to have adequate data protection, and can therefore facilitate the transfer of EU data. The EU-US Privacy Shield's predecessor, the Safe Harbour Framework, was overhauled because the EU did not consider this agreement strict enough on data protection for their citizens. The GDPR protects the data of all EU citizens, regardless of whether they currently live in the EU.

What is the EU-US Privacy Shield and ... - EU GDPR Compliant
Privacy Shield allows for the transfer of personal data from the EU to the US and focuses on the methods of data transfer, including third-party transfers. The GDPR is a law that has specific requirements for companies that handle EU data in any country, not just the US. According to GDPR, data transfer may only occur to countries deemed by data protection authorities as having adequate data protection laws. Currently, the US is not generally listed as one of those countries.

GDPR data privacy rules in Europe and how they apply to US ...
The EU's new General Data Protection Regulation (GDPR) is coming into effect on 25 May 2018 and will have wide-ranging consequences on a global scale, affecting all businesses that trade with the European Union, from within or outside its borders. From among non-EU countries, US businesses in particular have been actively taking steps to ensure that they comply with the new regulation.

Privacy Policy - GDPR.eu
The European Union's General Data Protection Regulation (EU GDPR) broadly applies to information relating to persons residing in the European Economic Area (EEA). EU GDPR limits when and how organizations worldwide can collect, store, use, or otherwise process personal data.
