Modifying API Requests. Some API endpoints can be used with extra parameters that will modify the request. The nature of what these modifiers do varies, so we have documented each of them separately in each of the API reference documents where appropriate.

Facebook for Developers

The Facebook API allows web developers to create Facebook applications and access Facebook data from other applications. Facebook API Developers Guide covers the use and implementation of the Facebook API—what the key features are and how you can access them. You will learn, through practical examples, the main features of the Facebook API including an introduction to the API-specific languages FQL and FBML.
