Braddock Rule #8: Where there are fasteners and co-workers, there will one day be damaged fasteners! Unfortunately, history proves this statement correct, so good design engineers should know how to (1) not damage fasteners when using them and (2) how to repair fasteners damaged by others who didn't know better.

FASTENERS . Introduction . Fasteners are a deceptively complex topic. Most of us unknowingly use fasteners incorrectly because we never take the time to learn about them. So this document is intended to provide a brief introduction to and overview of this diverse subject. Some Basics . If you've complete my class, you know the topic of fasteners is an important one to me.
