Female headed households (% of households with a female ...

In most countries, women are not usually considered as heads of households unless no adult male is living permanently in the household. The assumption that the head of a household is always an adult man, even if a woman's economic contribution to the household's maintenance is the same or greater than that of a man, is a form of gender bias.

Homeownership by Gender - Prosperity Now Scorecard

The gender of the household head has often been treated as an exogenous determinant of homeownership. This paper argues that several determinants of homeownership also affect household headship and that failing to explicitly account for this endogeneity leads to inconsistent results.

A closer look at the fifteen-year drop in black homeownership

The gender of the household head has often been treated as an exogenous determinant of homeownership. This paper argues that several determinants of homeownership also affect household headship and that failing to explicitly account for this endogeneity leads to inconsistent results.
