parties. Accounting is a discipline which records, classifies, summarises and interprets financial information about the activities of a concern so that intelligent decisions can be made about the concern. The American Institute of Certified Public Accountants has defined the Financial Accounting as "the art of recording,

**Financial Accounting-II**

Financial Accounting vs. "Other" Accounting. Financial accounting represents just one sector in the field of business accounting. Another sector, managerial accounting, is so named because it provides financial information to a company's management. This information is generally internal (not distributed outside of the company) and is primarily used by management to make decisions.
