Fire Hydrant Maintenance, Testing & Certification. State and local fire codes require maintenance, testing and certification of private and Mobile Home Park fire hydrants annually. Hayden Fire Protection is certified to both flow test and certify your fire hydrants – ensuring your fire water hydrant works properly and you safely stay in compliance annually.

Operation & Maintenance of Fire Hydrants

Conducting fire flow tests and flushing hydrants are a routine component of a good water distribution maintenance program. When a fire hydrant is opened, the velocity of the flowing water disturbs sediment at the bottom of the pipes and the water turns cloudy. To correct this, open multiple faucets in your home until the water becomes clear.
