Bookmark File PDF Food Combining Chart

I know many food combining charts just lump all the protein-rich foods into one category but nuts/seeds usually have more fat than anything so digest better away from animal proteins. Also, the smaller the seed/nut the easier it is to digest, so a sprinkle of hemp or chia seeds over fruit (or even cereal) likely won't be an issue for many people.

Food Combining Chart - Which Foods Should Not Be Combined?

Food Combining Proper food combining supports optimal digestion, weight loss, skin health, increased nutrient absorption and general wellbeing. Although the fundamental principles of combining are universal, your results may vary depending on your body chemistry, so experiment, and eat intuitively!
