*Why People Love Modern Architecture | Freshome.com
Architecture is more than a clever arrangement of bricks. In this eloquent talk, Michael Murphy shows how he and his team look far beyond the blueprint when they're designing. Considering factors from airflow to light, theirs is a holistic approach that produces community as well as (beautiful) buildings.*

*Art Appreciation Final Flashcards | Quizlet
Form follows function is a principle associated with modern architecture and industrial design in the 20th century. The principle is that the shape of a building or object should be primarily based upon its intended function or purpose. Architecture is not merely a slavery to the past art, not is it blind originality.*

Form follows function - Wikipedia

It was associated with an analytical approach to the function of buildings, a strictly rational use of (often new) materials, structural innovation and the elimination of ornament. It was also known as International Modernism or International Style, after an exhibition of modernist architecture in America in 1932 by the architect Philip Johnson.

"Form follows feelings" - LionHeart

Form follows function is a principle of architecture that states that the shape of structures is dictated by their function. The principle is considered the driving principle of modern architecture and is often applied in other areas of design such as product design. It is logical but is often challenged in several ways:
