Balance and Motion - FOSS

Curriculum: FOSS Balance and Motion Teacher: Lorena Reyes ... Balance and motion is an important unit of investigation because students can start exploring and learning more about the natural world. Balance is not foreign to second graders because they "love to engage in balance activities." They try to balance pencils in their hands ...

FOSSweb.com

The motion of an object is determined by the sum of the forces (pushes and pulls) acting on it. You need a force to start moving, change the direction of, or stop an object. Force creates change in motion. A force can be seen or unseen. Objects and systems that turn on a central axis exhibit rotational motion. Balance is a result of equal effort.

FOSSweb FOSS Modules

These are the global phenomena that students experience in the Balance and Motion Module. FOSS California helps students meet standards because they: Measure linear distance using standard metric units. Explore concepts of position, balance, counterweight, and stability.

Lesson Plan - 2nd Grade Balance & Motion

Students discover numerous ways to balance two-dimensional shapes made out of tagboard. They use a piece of pliable wire and counterweights (clothespins) to make a pencil balance on its point. They make mobiles from paper clips, rubber bands, straws, and index cards to apply their understanding of balance, stability, and counterweighting.
