After a few years in industry, Robert W. Hayden (bob@statland.org) taught mathematics at colleges and universities for 32 years and statistics for 20 years.In 2005 he retired from full-time classroom work. He now teaches statistics online at statistics.com and does summer workshops for high school teachers of Advanced Placement Statistics. He contributed the chapter on evaluating introductory ...

Foundations and Methods of Stochastic Simulation

Foundations and methods of stochastic simulation. Each day there is a demand for items which is equally likely to be1,2,...,9 items. The system satis?es as much of the demand as possible, butif it does not have enough items in stock then the excess demand is lost. Whenthe stock reaches or goes below ReorderPoint...
