Kristy Cunning (Author of Four Psychos)

Sometimes it can be scary reading the second book in a series when you loved the first one so much. So let me put your fears to rest and say that Three Trials is just as good as Four Psychos. Three Trials picks up right where Four Psychos left off, so if you start reading right after you finish the first book it almost feels like the same novel.

Four Psychos The Dark Side

The Four Psychos is a reverse harem book about a girl who is a sort of ghost thing. She can't remember anything about herself or her past life except that since she first saw her four guys she has been able to stay in this world for longer.

Four is definitely my favorite. Two is a close second though, because he takes his time. His blond hair is a stark contrast to Four's inky black hair. The two side by side have no visible similarities, besides the fact they're carved like sexy stones. Three is probably the most attractive—blindingly gorgeous, to be honest.

Two Kingdoms is the third installment of The Dark Side series. We get to know more about the four horsemen and Paca herself. It was interesting to see the whole family dynamic between Lucifer and his kids. Plus, seeing the chemistry between Paca and her guys is utterly adorable.. but I NEED more freaking smut. I feel like I'm not getting enough.
