An FMC Manual/Checklist that specifies what you would need to do in real-life scenarios. An Advanced Take-off guide/checklist that specifies exactly what you need to do once you take-off. An Advanced ILS guide/checklist that, just like the take-off guide specifies what you need to do in order to perform an ILS approach. Developer Notes:

Building A Flight Sim Home Cockpit: 5 Examples You Can ...

The Q4XP is our answer to the aging Q400 Legacy that was FlyJSim's first product, now over ten years old. The Q4XP is a brand new product, built from the ground up over the past two-and-a-half years with a team of talented developers, using new technology, with the endeavor to push the limit over our previous releases.

Free Fmc Guide 737

A flight management system (FMS) is a fundamental component of a modern airliner's avionics. An FMS is a specialized computer system that automates a wide variety of in-flight tasks, reducing the workload on the flight crew to the point that modern civilian aircraft no longer carry flight engineers or navigators. A primary function is in-flight management of the flight plan.
