Hofstede, Bond and Minkov scored each country on a scale of 0 to 100 for each dimension. When Hofstede analyzed his database of culture statistics, he found clear patterns of similarity and difference along the four dimensions.

Geert Hofstede Cultural Dimensions

Geert Hofstede, assisted by others, came up with six basic issues that society needs to come to term with in order to organize itself. These are called dimensions of culture. Each of them has been expressed on a scale that runs roughly from 0 to 100.

Geert Hofstede and Gert Jan Hofstede on culture

Professor Geert Hofstede developed the Cultural Dimensions Theory through his studies of how the values of a workplace can be influenced by culture. Under Hofstede's definition, culture is considered to be the collective programming of the mind, which allows each member of a group or category of people to be distinguished from one another.

Hofstede's Cultural Dimensions EXPLAINED with EXAMPLES | B2U

The Hofstede model of national culture consists of six dimensions. The cultural dimensions represent independent preferences for one state of affairs over another that distinguish countries (rather than individuals) from each other. The country scores on the dimensions are relative, in that we are all human and simultaneously we are all unique. In other words, culture can only be used meaningfully by comparison.
