Gestalt Therapy: An Introduction

Gestalt psychology should not be confused with the Gestalt therapy, which is only peripherally linked to Gestalt psychology. The founders of Gestalt therapy, Fritz and Laura Perls , had worked with Kurt Goldstein , a neurologist who had applied principles of Gestalt psychology to the functioning of the organism.

(non-significantly).

What Changes the Individual in Gestalt Groups?

The Gestalt law of proximity states that "objects or shapes that are close to one another appear to form groups". Even if the shapes, sizes, and objects are radically different, they will appear as a group if they are close. Refers to the way smaller elements are "assembled" in a composition.
