Globalisation and the Roman World

This book explores a new perspective for understanding the Roman world, using connectivity as a major point of departure. Globalisation is apparent in increased flows of objects, people and ideas and in the creation of translocal consciousness in everyday life.

Globalisation and the Roman world - Leiden University

Preview. Globalization describes the formation of one integrated, interconnected, supra-national society. Its applicability to the study of ancient Rome has already been discussed in a spate of studies, among which that of B. Hitchner particularly stands out. 1 Globalization and the Roman World (henceforth GRW) draws on this recent, fertile scholarship and is the outcome of workshops held in ...

Globalisation and the Roman World: World History ...

Mobility is a key aspect of globalisation, and it is the degree of mobility attained by Rome that allows the possibility of considering the Roman Empire as the earliest form of globalisation in human history. The ability to mobilise resources underpins the historical significance of the Roman Empire.
