Rapoport - Four Waves of Terror - WRSP

Grey water (also spelled gray water in the United States) or sullage is all the wastewater generated in households or office buildings from streams without fecal contamination, i.e. all streams except for the wastewater from toilets. Sources of grey water include sinks, showers, baths, washing machines or dishwashers. As grey water contains fewer pathogens than domestic wastewater, it is ...

Amazon.it: Graywater: The Next Wave - Curtis McLamb - Libri

While most ships generate graywater, passenger vessels are responsible for the majority of these discharges, since more people mean more sewage and graywater. The EPA found sewage discharge rates on passenger vessels to be 8.4 gallons per day per person, while graywater discharges total anywhere from 45 gallons per day per person to 65 gallons per day per person.

Graywater : the next wave (Book, 2004) [WorldCat.org]

The book Graywater, the Next Wave is one of many graywater books I have read in my ongoing search for a viable graywater system for Brooklyn brownstones. The book offers a great beginners introduction on how to build a residential graywater drainage system. It doesn't answer my questions though. Firstly because

Next Wave Festival 2020

The Waves In the 1880s, an initial "Anarchist Wave"(6) appeared which continued for some 40 years. Its successor, the "Anti-Colonial Wave" began in the 1920s, and by the 1960s had largely disappeared. The late 1960s witnessed the birth of the "New Left Wave," which dissipated largely in the 90s leaving a few groups still
