When ordering something from woodstock (grizzly or shopfox) expect problems. I have a lot of their tools and this is just part of the process. I was missing parts on the fence and it wasn't locking down right and the left extension was warped (even the replacement they sent me was warped but usable) Grizzly will make things right for you as long as you report the problems right away.

Grizzly G4003G User Manual - ManualMachine.com

The width of the Grizzly miter slots match the PM66 slots almost perfectly. The machining of the Grizzly slots appear to be ever so slightly better than the PM66. The slots of the Grizzly are closer to the blade than the PM66. Some see this as an advantage. Arbor runout on the Grizzly is +/- .001". Runout on our PM66 is .002".
