orchid nursery will generally do better once you get them home.

Growing Orchids Fact Sheet - Burke's Backyard  
Cymbidium orchids have been cultivated for thousands of years in China, and are now a popular plant for home gardeners. While some of the many cymbidium species can grow more than five feet (1.5 meters) tall, all but the most temperate climates require the orchid to be kept indoors at least part of the year, or even moved in and out daily.
