Speedlight SB-900

If you put the SB-900 on one of these other cameras, the SB-900 is smart enough to go in to A mode magically, instead of blinking at you in TTL. The gotcha is that you will need to remember to set and check the necessary apertures; you can't just fire it up and go as you can with other flashes

The SB-910 version was introduced in late 2011, with the only fundamental change from the SB-900 being the way the new flash manages overheating.

The SB-910 replaced the SB-900 in the lineup, and the SB-900 was discontinued. In all
