HACCP - Preparation and Cooking #4

The application of Hazard Analysis Critical Control Point (HACCP) systems in delicatessens and meat, poultry and seafood retail food stores is the best available means to ensure food safety. An effective HACCP system assures that retail food store customers will not become ill or injured after eating foods handled, processed or prepared in the store.

Tuna Sandwich HACCP Plan - Oregon Sea Grant

Appropriate and adequate chillers and freezers should be available in authorised retail outlets selling sandwiches. Summary A preventive food safety management system (such as the HACCP) should be established to ensure that effective control measures are in place to minimise potential chemical, physical or microbiological (e.g. pathogens) contamination of the products during the manufacturing process.
