Handbook of Labor Economics: Volume 3A (Handbooks in ...

Series: Handbook of Labor Economics. Modern labor economics has continued to grow and develop since the first volumes of this Handbook were published. The subject matter of labor economics continues to have at its core an attempt to systematically find empirical analyses that are consistent with a systematic and parsimonious theoretical understanding of the diverse phenomenon that make up the labor market.

Book Series: Handbook of Labor Economics

"The entries in the Handbook of Labor Economics update, deepen, and broaden the analyses contained in earlier volumes. The first-rate papers here address important problems in labor economics, often from new perspectives. As is the case with Volumes 1-3, many of the papers in volume 4 are "must-reads" and sure to make it onto graduate reading lists."

Labour economics seeks to understand the functioning and dynamics of the markets for wage labour. Labour is a commodity that supplied by labourers in exchange for a wage paid by demanding firms. Labour markets or job markets function through the interaction of workers and employers. Labour economics looks at the suppliers of labour services (workers) and the demanders of labour services ...**
