Harley Davidson Tire Pressure Guide

Harley Davidson recommends using only certain tires for specific models of motorcycles. The cold pressure for each tire is listed on a chart on the company's website. For example, the front tire on Harley's XL 883L SuperLow model should be a Michelin Scorcher "11F" 120/70ZR18 inflated to 36 psi.

Pressure and Inflation. Thanks for the tips Brian!

2018 Harley-Davidson Road Glide Special Tire Pressure
Harley Davidson factory service manuals recommend setting front tire pressure to 36 psi and the Harley rear tire pressure to 40 psi. Tire pressures should be checked cold unless having an issue while on the road. Setting tire pressure when warm, or shortly after riding, will give you an inaccurate reading (usually a higher reading).

"Tech Tips": Tire Pressure and Inflation.

Our resources will help you find recommended tire pressure settings for your vehicle set by the manufacturer, and to check the maximum tire inflation and tire load capacity of your tire model and tire size. Explore the tire pressure guide for useful articles
