Just consult this lavishly illustrated compendium of all things hashish. Appealing to illicit substance consumers and history buffs alike, Clarke traces the hashish story from earliest times to the present and describes traditional methods of collecting cannabis resin and processing the gooey stuff into hashish.

These Lockdown Candles Were Made to Smell Like the Places ...

If cannabis, as was illustrated by Pineapple Express, does encourage a “questioning of authority”, it would make sense that the military would want it as far away from it as possible. They cannot have individuals questioning the chain of command at every step. It would disrupt their entire process, and could spell disaster on the battle field.

A Treasury of Hashish: Sumach THC, Alexander ...

A joint is cannabis wrapped in paper, usually with a filter or tip, that is lit and smoked. Three components construct a good joint: the cannabis, the paper, and the filter or tip. A filter is the rolled card mouthpiece that helps airflow, although it's possible to construct a joint without one. The paper is a wrap that holds the cannabis ...

With new cannabis extracts coming out every day, even veteran smokers have a hard time keeping up. This guide will teach you the basics of cannabis extracts. Cannabis extracts are made by extracting cannabinoids from weed plants. Some extracts use the whole plant, whereas others use only parts (such as buds or trim).

Cannabis And Frankincense Discovered At Ancient "Holy Of ...

Cannabis is a dioecious plant (i.e. an individual cannabis plant is either male or female). Whilst both produce good quality fibre it is the females that are the best producers of the cannabinoids, the psychoactive compounds present in the plant, the most significant of which is delta-1-tetrahydrocannabinol, most commonly referred to in its abbreviated form, THC.

Changes in Europe's cannabis resin market | www.emcdda ...

This is illustrated by a comparison of the THC content of a marijuana joint from the 1960s with a modern-day marijuana joint. In the 1960s, the average marijuana cigarette contained approximately 10 mg of THC. The modern joint contains approximately 150 mg of THC, or if laced with hashish oil this may increase to 300 mg (2). The
