Mediation. Activity Theory emphasizes that human activity is mediated by tools in a broad sense. Tools are created and transformed during the development of the activity itself and carry with them a particular culture — historical remains from their development. So, the use of tools is an accumulation and transmission of social knowledge.

Eyquem, who had become enamored of novel pedagogical methods that he had discovered as a soldier in Italy, directed Montaigne's unusual education. As an infant, Montaigne was sent to live with a poor family in a nearby village so as to cultivate in him a natural devotion to "that class of men that needs our help."
