76 Holt Physics Problem Workbook NAME \_\_\_\_\_ DATE \_\_\_\_\_ CLASS \_\_\_\_\_ 5. In 1987, a giant hanging basket of flowers with a mass of 4000 kg was constructed. The radius of the basket was 3.0 m. Suppose this basket was placed on the ground and an admiring spectator ran around it to

PROBLEM WORKBOOK

Hundreds of problems but not one (other than the sample problem) which has an answer/answer key anywhere. How to know that the problem was done correctly? What's the point of doing the problems if you're doing them all wrong and can never be sure that you did it correctly. Even a teacher needs an answer key, for reassurance sometimes.
