Gold, also called golden, is a color.. The web color gold is sometimes referred to as golden to distinguish it from the color metallic gold. The use of gold as a color term in traditional usage is more often applied to the color "metallic gold" (shown below).. The first recorded use of golden as a color name in English was in 1300 to refer to the element gold and in 1423 to refer to blond hair.

Gold (color) - Wikipedia

According to scientists, the heat from the central heating system will be enough to generate the sufficient current to charge household appliances. It is assumed that a thermoelectric generator should be installed near the heating system, and the obtained electricity will be transferred to the electrical wiring and charge small devices.

Household spending has been lower than usual this year, due to the Covid pandemic. The pandemic has also hit household incomes, but to a lesser extent, partly reflecting government policies to support income, most notably the Coronavirus Job Retention Scheme. As a result, household savings have risen, on average.

How has Covid affected household savings? | Bank of England

The Greenguard Gold adheres to even stricter standards than the Greenguard certification criteria. For example, the Greenguard Certification allows 500  $\mu\text{g}/\text{m}^3$  (micrograms per cubic meter of air) total VOCs. This is much more than the Greenguard Gold limit of only 220  $\mu\text{g}/\text{m}^3$  total VOCs. The Gold standard even checks for additional chemicals.

### What Does a GREENGUARD Gold Certification Mean? - Amerisleep

The total stock of UK household debt (excluding student loans) was equivalent to around 123% of total household income, materially below its 2008 peak of around 145%. footnote [4] Of this, mortgage debt accounts for around four fifths and consumer credit about a fifth of the total.

### Household debt and Covid | Bank of England
