by simply balancing on one leg for 30 seconds. This is an easy way to find out what our natural tendencies are.

3 Easy Ways to Run a Program on Command Prompt - wikiHow
CHOOSE A TRAINING PLAN. Most new runners start with a 5K — a 3.1-mile race that is typically less intimidating than a longer race. Your local 5K will attract a fun, relaxed group of new runners and walkers, as well as more experienced runners who like to go fast. For this plan, you will run for 30 minutes every Tuesday and Thursday,...

Beginner

Right-click the app, select More, and then select Open file location. This opens the location where the shortcut to the app is saved. If there isn't an option for Open file location, it means the app can't run at startup. With the file location open, press the Windows logo key + R, type shell:startup, then select OK. This opens the Startup folder.
