How to use filter paper

This allows you to make a cup of tea and enjoy it without having to spit out tea leaves. Other uses of paper filters may be in your household to remove particles from the air that could be allergens, or annoying or harmful to breathe in.

How do I process my Addgene plasmid (DNA tube/filter paper ...

Paper Placement, Air Impregnation. You place your filter paper in the sealed development chamber after the solvent but before the stationary phase. It absorbs the liquid in the solvent and provides more surface area for evaporation. More surface area means more and faster evaporation. More evaporation means more solvent vapor in the chamber's air, which is desirable.
