You can configure Data Integration Management for Oracle's Hyperion® Shared Services authentication on all platforms except for HP-UX. You can configure it for native Informatica

Hyperion Data Integration Management ERP/CRM Ad ...
Creation of a standard set of metadata that will feed the entire Oracle Hyperion EPM Suite of Products from a centralized data repository that has integrity enforced by business rules and validations.

Oracle Hyperion Data Relationship Management
Oracle has a competing product called Oracle Data Integrator, and I've noticed lately that in the literature, they are positioning it as the integration tool, with no mention of DIM. Since Oracle Data Integrator does the exact same thing as Informatica, I do not envision DIM being around for very long.
