### Nursing: NURSING PROTOCOLS FOR ICU

Protocols can minimize inconsistencies in the care of similar patients by the myriad healthcare providers in an ICU. Variability in clinician behavior is a product of varied educational backgrounds and experience [1]. In fact, a single physician might even respond to similar patients and situations, at different times, in different fashion [2].

### Intensive care Unit - Ministry of Health & Medical Services

The following are some general Nursing Protocol for Critical Care for nursing care of the intensive care patients. 1. No critical care patient be left without a nurse in attendance. 2. Critically ill patients may have life-threatening changes in their condition; remove an invasive line if self-extubate quickly. 3.

### EVMS CRITICAL CARE COVID-19 MANAGEMENT PROTOCOL

Protocols and evidence-based strategies for prevention and treatment of delirium will no doubt emerge as more evidence becomes available from ongoing randomized clinical trials of both nonpharmacological and pharmacological strategies. Our group has deliberately put off publishing a delirium management algorithm because it would necessitate incorporation of "expert opinion" and thus ...
