What is the answer to the problem of the week grade 7 page ...
If she had to do 75 hours and already did 15, she has 60 left to do (75-15=60). To complete her service in 12 weeks and do the same amount of hours each week, she will need to do 5 hours each week (60/12=5). She can also vary the work schedule by doing less in one week and make up the hours in another week.

The Delta is an alluvial fan of mud deposited through many millennia by the annual flooding of the Nile; it has no source of stone within it. Mud, mud and wattle, and mud-brick structures were of limited duration and use, and were repeatedly leveled and replaced, and very largely merged once more with the mud of the fields. . . .
