World Information Architecture Day is dedicated to the empowerment of local leaders. Our celebrations inspire the global growth of information architecture as a community of practice and we value diverse thoughts and thinkers in our celebrations. World IA Day is jointly produced by a network of global, regional, and local volunteers.

## **About World Information Architecture Day | World IA Day**

Information architecture. Information architecture ( IA) is the structural design of shared information environments; the art and science of organizing and labelling websites, intranets, online communities and software to support usability and findability; and an emerging community of practice focused on bringing principles...

## **Complete Beginner's Guide to Information Architecture | UX ...**

Information architecture (IA) focuses on organizing, structuring, and labeling content in an effective and sustainable way. The goal is to help users find information and complete tasks. To do this, you need to understand how the pieces fit together to create the larger picture, how items relate to each other within the system.
