Interactive Approaches to Second Language Reading ...

The book supports the view that reading in a second language involves more than decoding; instead, reading is seen as an interactive process whereby the learner's own background and knowledge contribute to understanding reading material.

Language pedagogy - Wikipedia

The interaction hypothesis is a theory of second-language acquisition which states that the development of language proficiency is promoted by face-to-face interaction and communication. The idea existed in the 1980s, but is usually credited to Michael Long for his 1996 paper The role of the linguistic environment in second language acquisition.
