Conference On language.

About Conference | AAAFM About the Conference. Functional programming (FP) has been a hot research topic for over three decades now. However, in the last five years,

Conference On driven by the need to build massively concurrent systems and to handle big-data in smarter ways, diverse companies - ranging from tech start-ups to financial institutes - are rapidly adopting

FP concepts.

The International Conference on Functional Programming

* real-world constraints that created special challenges for an implementation of a functional
