Team - Equity International
What are private equity funds? When you invest in a private equity fund, you are investing in a fund managed by a private equity firm—the adviser.. Similar to a mutual fund or hedge fund, a private equity fund is a pooled investment vehicle where the adviser pools together the money invested in the fund by all the investors and uses that money to make investments on behalf of the fund.

International | Burlington Capital

Equity investments provide developmental support and long-term growth capital that private enterprises need. We invest directly in companies' equity, and also through private-equity funds. In fiscal year 2018, equity investments accounted for about \$1.3 billion of commitments we made for our own account.

International Investments In Private Equity

Private equity is subject to boom and bust cycles. Private equity cycles are driven by both macroeconomic conditions and return expectations by investors. In a downturn, inflows to private equity funds fall, which forces fund managers to be highly selective in identifying the most attractive investment opportunities.

Investments - Advent International

A private investment in public equity, often called a PIPE deal, involves the selling of publicly traded common shares or some form of preferred stock or convertible security to private investors. It is an allocation of shares in a public company not through a public offering in a stock exchange. PIPE deals are part of the primary market.
