Narrative paradigm is a communication theory conceptualized by 20th-century communication scholar Walter Fisher. The paradigm claims that all meaningful communication occurs via storytelling or reporting of events. Humans participate as storytellers and observers of narratives. This theory further claims that stories are more persuasive than arguments.

Editions of Introducing Communication Theory: Analysis and ...

The purpose of this text is to introduce the field of communication to students who may have little or no background in communication theory. The three overriding goals of the book are to help students understand the pervasiveness of theory in their lives, to demystify the theoretical process, and to help students become more systematic and critical in their thinking about theory.
