Top 10 Books about Neuro-Linguistic Programming - Best ...

Neuro-linguistic programming is a pseudoscientific approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States in the 1970s. NLP's creators claim there is a connection between neurological processes, language and behavioral patterns learned through experience, and that these can be changed to achieve specific goals in life. Bandler and Grinder also claim that NLP methodology can "model" the skills of exceptional people.
