Quora - A place to share knowledge and better understand ...

11-15 each have one form: once, doce, trece, catorce and quince. Technically, 16-19 can be written as the three words "ten and six, ten and seven, ten and eight, etc." This looks like diez y seis, diez y siete, diez y ocho, etc.. However, we will not use three words to write these numbers in class.

In chemistry, we study the elements with the help of the modern periodic table. The properties of elements are the periodic function of their atomic masses. Periodic classification of elements is the method by which elements are grouped on the basis of their characteristics. We keep the elements which are alike in one group and the rest of the elements in the other group.
