Iveco Cursor Engine Problems  
Those Iveco owners on also on SBMCC will know my 2001 65C15 expired big style last week. It is a camper, so it doesn't get driven often at this time Help me fix my engine problems - Iveco Daily Forums

IVECO CURSOR 13 engine/440HP  
Power comes from the IVECO Cursor 8 engine featuring direct-injection technology, variable-geometry turbo and overhead camshaft design with four valves per cylinder. The 7.8-litre, six-cylinder unit produces 265 kW (360 hp) and 1500 Nm of torque at a low 1125 rpm. This is an SCR engine currently rated to conform to Euro 5 specs.

Cursor engines - Iveco  
Hi, I have a 2007 Iveco stralis with a cursor 10 engine. I am a farmer in Australia and use the prime mover with a tipper trailer to deliver grain to port. My problem is that the engine overheating alarm comes on regularly, especially on hot days. I do have to drive it through the field a lot, which can suck up a lot of dust and chaff.

IVECO Cursor 8  
Cursor 13. Iveco's Cursor engine has certainly had a checkered career. Now in Series II version, performance is responsive and smooth. Iveco is confident that previous problems are now where they belong. In the past! Engine and Transmission

IVECO AUSTRALIA - STUDYING STRALIS  
Approval for 4 Ecopoints is available on all engine settings. The Cursor engines feature high maximum torque (at least 400 rpm), which is matched by a maximum constant output of 500 rpm with the Cursor 10 and almost 400 rpm with the Cursor 13. The new Cursor 13-540 yields maximum output at 1600 rpm.

new trækker - Cursor 13 - Iveco  
After a little wait, Prime Mover was finally able to put the Iveco Stralis with the revamped Cursor II engine to the test in a real life scenario. Will the show-stopper be able to perform under pressure?

Help me fix my engine problems - Iveco Daily Forums  
A Euro 5 SCR engine, the Cursor 13 has also evolved to Series II status, which, at the very least, suggests that Iveco has identified and amended those issues that caused concern in earlier models. Again, the word from within Iveco is that Cursor's Series II derivative is showing none of the problematic traits of its predecessor.
