Edc light problem on Iveco 35s12 2.3 hpi 2007.

The engine code is usually stamped somewhere into the engine block. The first 4 or 5 letters / numbers usually provide enough technical information for a car parts supplier to find the right engine related car part for you. You can search our database for engine codes which have been specified with requests in the past.

Iveco daily red flashing injector light problem solution and guide

Reply: MSHS : 12-Sep-14 : Hello Soren, You are correct that if the engine starts and runs from the relay box in engine room mode that there is not an issue with the fault codes you see.It is quite common for those older 5.9L NEF engines to have camshaft crankshaft plausibility errors periodically due to gear lash being slightly larger in tolerance than the calibration will tolerate for ...

Iveco error code issues - The Grey Nomads Forum

Fault signals EDC and EODC appeared. This caused the vehicle (Daily 50C18 motor home) to go into limp mode. Thanks to excellent work by Iveco Tamworth these faults were diagnosed as dirty air cleaner element and carbon build up on boost pressure sensor. The boost pressure sensor would appear to cause nine out of ten 148 warnings.
